

Watts® ROs with Kwik-Change™ Cartridges

Simply the “best” of the “best”!

Watts® Kwik-Change™ Systems from U.S.A. are designed for consumers that demand the "best". Unlike conventional reverse osmosis systems, Watts drinking water systems with Kwik-Change cartridges have no sumps, so their proprietary filter elements and membranes are easy to replace.

4 types of cartridges colour coded for easy identification

- Sediment cartridge to remove sediment, silt and rust particles.
- Activated carbon block to reduce chlorine and heavy metals.
- RO membrane to remove micro-organisms like bacteria and cyst.
- Granular activated carbon (GAC) to remove odour and improve taste.

Features & Benefits

- Cartridges are connected and removed with a simple ¼ turn. It's so easy!
- No filter sumps! No fuss! No mess!
- Hinge bracket for easy handling.
- Automatic shut-off when cartridges are removed.
- No need to disconnect tubing when replacing membranes.
- Cartridges have double o-rings to prevent leakage.
- Valves are built into the heads to prevent back-flow for water quality assurance.
- WQA Gold Seal Certified to NSF/ANSI Std.58.

Stage	Capacity (GPD)	Faucet	Tank
4	50	Top Mount	RO-PRO®

Cartridges have double o-rings so they won't leak

Replacement Cartridges

Description
Kwik-Change™ sediment cartridge
Kwik-Change™ carbon block cartridge
Kwik-Change™ RO membrane cartridge
Kwik-Change™ GAC cartridge
